PROJECTS

Portfolio Website

- My Portfolio Website is made using ReactJs, EmailJs, Swiper.
- Developed to showcase React, JavaScript, and CSS knowledge through user-friendly Responsive Interfaces and projects that I have made.

WorldWise App | A Realtime Location Locator app

- Made using ReactJs, Router, Leaflet, and CSS modules.
- Developed to Locate the user's current location, navigate, and get location **wherever the** user clicks on the map.
- Enables users to add notes regarding cities they have visited.
- Uses Fake Authorization for user login.

MovieSpace App

- Made using ReactJs, RESTful API, and CSS.
- The App displays a short description of a movie and allows users to search for any movie, add it to a watchlist, see IMDb rating, rate it themselves, and remove it from the list.
- Uses own API Key from third party library to fetch data and display it with interactive UI/UX responsive design.

React Quiz App

- Quiz app made using ReactJs, FakeAPI.
- Enables users to choose answers amongst MCQs, every question consists of different scores calculated after completion of the quiz, registers a high score and the quiz needs to be completed within a given set of time.
